## COMPANY PROFILE

COMPANY PROFILE

**AIR BRAKE CORPORATION** of AUSTRALIA PTY LTD is a 100% Australian owned business established in 1987.

We specialize only in air brake and related equipment for road transport vehicles, so we are able to concentrate on what we know and do best, without the hindrance and distraction of unrelated business activities.

Our mission in life is simple: to provide the world's best air brake products at Australia's best prices, backed up by the best service and after-sales support possible.

Our method too is simple: we have aligned ourselves with the world's leading manufacturers, including ALKON, SEALCO, SYNFLEX, TSE, and WABCO, with complete and open access to their cutting edge technical expertise. This range of world renowned products is now complemented by our own PACIFIC brand, all ably backed up by our team of Australia's most knowledgeable air brake and antilock professionals, with close to a century of accumulated experience between them.

From its beginnings in 1987, AIR BRAKE CORPORATION has grown to become Australia's major supplier of ADR engineered air and electronic brake control systems and components to Australia's OE truck, bus, and trailer manufacturers.

As a wholesaler, we don't sell direct to the end user, but instead rely on an extensive network of distributors around Australia for aftermarket sales of genuine brand replacement parts, repair and maintenance kits.

Headquartered in the Sydney suburb of Hornsby, AIR BRAKE CORPORATION boasts a dedicated team of skilled employees, including technical sales representatives based in Brisbane and Melbourne, and a branch office and warehouse in Perth.

We are now looking to the future of heavy vehicle braking with EBS (electronic braking systems, or 'brake-by-wire') forming the foundation for advanced technologies like stability control, electronic suspension control, reverse sensing with automatic braking, and autonomous emergency braking, so rest assured, wherever the road may lead you, we'll be with you all the way!

## > PRODUCTS

---

WABCO Fahrzeugbremsen (EUROPE) including CLAYTON DEWANDRE (UK) air brake valves & systems, service and springbrake actuators, ABS, EBS, etc.

TSE Brakes (USA) springbrake actuators. SEALCO Air Controls Inc (USA) WILLIAMS Controls (USA) pneumatic controls, etc.

SYNFLEX Furon (USA) nylon air brake tubing. ALKON Corporation (USA) push-to-connect nylon tube fittings.

GENUINE JKC, NABCO, & SANWA SEIKI to suit Japanese commercial vehicles.

### **PLUS...**

## **PACIFIC AIR CONTROLS**

PACIFIC Air Controls - our exclusive new range of quality air brake system components.

## > SERVICES

---

- ✓ Supply of air brake and electronic brake systems (ABS/EBS) and related components to OE truck, bus, and trailer manufacturers.
- ✓ Supply of genuine brand replacement parts and repair kits to the aftermarket via an extensive national network of distributors.
- ✓ Design, testing, and assembly of air and electronic brake systems (ABS/EBS) to Australian Design Rule requirements (ADRs 35 & 38).
- ✓ Design and manufacture of ABS and EBS wiring harnesses to specific customer and vehicle requirements.
- ✓ Computer analysis and simulation of trailer braking performance for ADR38 compliance certification.
- ✓ Training in air brake and electronic (ABS/EBS) brake system function, maintenance, and repair for workshop personnel.
